

NEW JERSEY ACADEMY OF SCIENCE
**CYBERSECURITY
& PRIVACY SEMINAR**

FRIDAY, OCTOBER 16TH 5 - 7 PM VIA ZOOM

The technologies used to capture, store, and process huge amounts of data have improved considerably. With that, the need to improve prevention of unauthorized access to proprietary and/or personal data has become more important than ever. Welcome to a discussion on challenges, opportunities, and various aspects of an exponentially growing profession.

"Breaking Down
the Cybersecurity
Field"

**Jonathan
Gonzales**

"Building a Pathway for Cybersecurity
Education"
"Innovative Resources for Teaching and
Assessment of Cybersecurity . . ."
