## **August I CAN STEM New Jersey Role Model Announced**

Chatham, N.J. (August 1, 2021) The New Jersey STEM Pathways Network (“NJSPN”) is excited to announce its July I CAN STEM New Jersey STEM Role Model, Heidy Oliveira.

At the Naval Air Warfare Center Aircraft Division Lakehurst (NAWCADL), Haidy's focus is on the coordination and execution of all Education Outreach, coordination of Capstone Projects with universities and colleges, coordination and execution of NJ Regional Sea Perch program, coordination and participation around National Defense Education Program initiatives, and promoting interaction and inclusion by working with their Diversity Advisory Teams to foster inclusion and diversity to reach a more diverse group of students.

Through I CAN STEM, the NJSPN aims to increase the diversity of New Jersey's STEM workforce and academic pipelines. I CAN STEM will highlight diverse STEM role models so that all students will be able to see themselves participating and succeeding in STEM courses and careers. Each year, 12 I CAN STEM New Jersey Role Models will be highlighted, one each month.

NJSPN features both historical and famous I CAN STEM Role Models, such as physicist Shirley Ann Jackson, mathematician Alberto Calderón, and molecular biologist Flossie Wong-Staal, as well as I CAN STEM New Jersey Role Models representing people of color, LGBTQ+ community members and women who work in a STEM field here in New Jersey .

The I CAN STEM New Jersey Role Models were identified through an online nomination process. Nominations for 2021 are closed and nominations for 2022 will begin in September. Anyone can submit a nomination that meets the diversity criteria and works in New Jersey in a STEM field. The nomination form will be available at [njstempathways.org](http://njstempathways.org).

For more information on I CAN STEM visit <https://njstempathways.org/i-can-stem/>.

The NJSPN was created in 2014 and is managed by the Research & Development Council for New Jersey. It includes over 500 STEM leaders from across the State and connects all STEM stakeholders-K-12, higher education, non-profit, informal providers, business, philanthropists and government. NJSPN has six STEM learning ecosystems as part of an international network of ecosystems supported by the STEM Funders' Network. You can learn more about the Jersey STEM Pathways Network and New Jersey's STEM Ecosystems by visiting [www.njstempathways.org](http://www.njstempathways.org).
